MEMORANDUM FOR: Chairman, Guided Missiles Intelligence Committee

SUBJECT: Site Designation System for Soviet SAM Sites

REFERENCE: [REDACTED] Proposal for Designation System for
Soviet SAM Sites

25X1C

1. This Agency is of the opinion [REDACTED] criticisms of the last US proposal are more or less justified. We likewise feel that arrival at [REDACTED] agreement on this point has been overly long delayed, and that early action be taken to resolve our differences.

2. [REDACTED] proposal appears to meet the dual requirements of simplicity and required accuracy. It is therefore recommended that [REDACTED] proposal be adopted by the community at the next GMIC meeting.
